

COLLEY PROPERTY
AFFORDABLE DEVELOPMENTS

20th May, 2020

Reference: **Stephanie McKenzie**

To Whom It May Concern:

I have known Stephanie since 2007 and have had the pleasure of interacting with her both professionally and personally. Professionally, I worked with Stephanie over several years while I was General Manager of Zadel Property Education and her various roles within the organisation included work in event management, database management, customer service and staff management.

Stephanie has a high degree of personal motivation and excellent communication skills. She has empathy for those around her and shows professionalism in all her work.

Additionally, she has shown considerable leadership within the work environment, at times managing up to eight staff members, located around Australia and also overseas, while studying full time at university.

Stephanie is a natural leader and problem solver and is willing to put in the work required to complete tasks to a high standard.

In the time that I have known Stephanie she has experienced some particularly challenging personal circumstances, however she has shown a great deal of resilience and integrity in navigating these challenges and continually endeavours to learn from each experience.

I would have no reservations in recommending Stephanie to future employers and know she would be a valuable addition to any team.

Warm regards,

Jasi Colley
